

Visual Acuity in Myopia Study (VAM)

Why are we doing this study?

This study will evaluate the vision of 4 different contact lens designs in kids.

Who can be in the study?

Eligibility Criteria

- Between 7 and 17 years of age (inclusive)
- Good vision in both eyes
- Nearsighted
- Healthy eyes

Further screening questions will be asked prior to scheduling an appointment.

What the study involves:

This study involves 5 office visits over a 2-month period. Subjects will be asked to wear four different types of daily soft contact lenses. The lenses will be provided at no cost.

Will you directly benefit from the study?

Participation in this study does not directly benefit subjects.

Other things you should know about the study:

Subjects may be compensated up to \$512 for their time.

Principal Investigator: Dr. Irene Frantzis
