Residency Programs

SUNY, College of Optometry has been conducting year-long optometric residencies since 1974, when the in-house Vision Therapy Residency was instituted. This was the first optometric residency program in the country and the third to receive accreditation status. Since that time, the residency programs affiliated with and at the College have expanded to include 19 programs. The residencies are clinically based, patient care oriented programs. Along with the clinical component there are formal didactic activities which are an integral part of the residency program. All residency programs have the common goal of developing unique skills and competencies in one or more areas of optometric practice. Each program provides a body of knowledge that goes beyond that which is effectively covered in the professional optometric (O.D.) program.

Cornea & Contact Lens Residency at SUNY

Supervisor: D. Libassi, OD Email: dibassi@sunyopt.edu

Position available: 1
Mission Statement
The Cornea and Contact Lens residency, sponsored by the State University of New York State College of Optometry, provides qualified optometrists with advanced clinical education in contact lens patient care. The program will provide four main components: a clinical patient care component, a didactic component that provides advanced knowledge in contact lens care; a teaching component that allows for the acquisition of clinical and classroom educator skills; and research / scholarly activity portion. The resident is scheduled for direct patient care in the areas of anterior segment and specialty contact lens care. Upon completion of the program the resident will be qualified to provide high level patient care in the areas of contact lenses, corneal disease management, and pre / post corneal surgery. It is expected that the graduating resident should be clinically prepared to engage in collaborative contact lens research, conduct related scholarly activities, and function as an optometric educator in this field.

Community Health Optometry/Ocular Disease Residency at NYC Health + Hospitals / Gotham Health East New York and SUNY

Supervisor: L. Hakses, OD Email: lhakses@sunyopt.edu

Position available: 1
Mission Statement
The residency in Community Health/Ocular Disease Optometry seeks to attract highly qualified optometric graduates who have demonstrated above average entry-level competence in full-scope optometric care and have an interest in community-based practice in an urban locale. This program provides the opportunity for the resident to render continuity of care for patients with a diverse range of eye and vision disorders. Individuals who complete the program will be prepared to develop and operate a full-scope optometric service in an inner-city environment, and have the ability to assume a faculty position at an optometric educational institution.

Low Vision Rehabilitation Residency at SUNY

Supervisor: R. Marinoff, OD Email: marinoff@sunyopt.edu

Position available: 1
Mission Statement
The Residency in Low Vision Rehabilitation will provide the resident with advanced and concentrated clinical and didactic experience in all aspects of Low Vision Rehabilitation. The resident will be involved in both coordination and consultation of patient care with other rehabilitation, medical, and social services. Individuals who complete the program are expected to be able to deliver a high level of clinical care, serve as teachers in optometric institutions, and serve in a leadership role in optometric and service agencies and organizations involved in low vision care.

Ocular Disease Residency at Fromer Eye Centers

Supervisor: M. Su, OD Email: msu@fromereye.com

Position available: 2
Mission Statement
The mission of the Residency in Ocular Disease at Fromer Eye Centers is to offer qualified optometrists advanced clinical training and education in the diagnosis and treatment of ocular disease in a private practice environment. The program will prepare the resident to work confidently and efficiently as part of a dynamic team of professionals including ophthalmologists, optometrists, ophthalmic technicians, opticians and administrative personnel.

Ocular Disease Residency at SUNY

Supervisor: S. Bass, OD Email: sbass@sunyopt.edu

Positions available: 4
Mission Statement
The mission of the Residency in Ocular Disease, sponsored by the State University of New York, College of Optometry, is to offer qualified optometrists advanced training, education and research opportunities in the diagnosis and treatment of ocular disease and to prepare the resident to become a clinical and didactic educator. The program has four parts: 1) a patient care component that assures sufficient numbers of encounters and diversity of conditions in a variety of clinical settings both within the College and at external sites, including a hospital setting 2) a didactic component that provides advanced knowledge in ocular disease 3) a pedagogic component that allows for the acquisition of clinical and classroom teaching skills and 4) a research/scholarly activity portion. The resident participates in patient care in other of the College’s clinical units, on a limited and elective basis. Upon completion of the program, the resident will be qualified to provide high level diagnosis and independent or co-management of ocular diseases in private or institutional settings, engage in scholarly activities, and function as an optometric educator in this field.

Ocular Disease Residency at Atlantic Eye Physicians

Supervisor: B. Hall, OD Email: brian.hall.oo@gmail.com

Position available: 2
Mission Statement
The residency at Atlantic Eye Physicians offers outstanding clinical training and professional development in a private practice environment. Our residents enjoy the abundant resources available in a large full scope multispecialty practice and will receive advanced training in comprehensive eye care, emergency eye care, cornea, cataract, glaucoma, ocuoplastic, retinal and neuro-ophthalamic disease. The faculty offer expertise in all areas of specialization and are available to the residents for instruction and consultation. The resident will complete the program prepared to confidently provide the highest level of eye care.

Primary Eye Care Optometry Residency at SUNY

Supervisor: S. Schuettenberg, OD Email: sschuettenberg@sunyopt.edu

Positions available: 2
Mission Statement
The SUNY Primary Eye Care residency at the State College of Optometry, seeks to attract the best qualified optometric graduates who have demonstrated above average competence in the optometry program and who have demonstrated interest in Primary eye care and optometric education. This residency provides the highly qualified optometrist with the opportunity to advance in all aspects of Primary Eye Care rendered to a diverse patient population. Opportunities are provided to diagnose, treat and manage a wide variety of visual system problems, including ocular diseases, and ocular manifestations of systemic diseases. The residency program provides:

* A broad based patient population, with sufficient numbers of encounters to supply a wide variety of conditions.
* A pedagogic component that allows for the acquisition of clinical and classroom teaching skills.
* Scholarly activities and didactic components that allow the resident to increase his/ her knowledge base, along with contributing to the literature.

Director of Residency Education
Diane T. Adamczyk, O.D., F.A.A.O.
dadamczyk@sunyopt.edu
Primary Eye Care / Ocular Disease Residency at Harbor Health Veterans Affairs Healthcare System
Supervisor: M. D’Amour, OD
Email: michelle.d.amour@va.gov
Positions available: 4
Mission Statement
The mission of the NY Harbor Health Veterans Affairs Healthcare System (Brooklyn/Albany) is to provide residents with education and training for the delivery of primary optometry care to patients with acquired brain injury (ABI), in a multidisciplinary hospital-based setting

Primary Eye Care / Ocular Disease Residency VA Hudson Valley Healthcare System
Supervisor: J. Jung, OD
Email: Jean.Jung@va.gov
Positions available: 4 (plus 1 Without Compensation)
Mission Statement
The residency at VA Hudson Valley Healthcare System seeks to attract the best qualified optometric graduates for advanced training in ophthalmic and primary eye care. The residency strives to provide advanced didactic knowledge and concentrated clinical experience in a multi-disciplinary hospital-based setting. Individuals who complete the program are expected to attain a high level of proficiency in the diagnosis and management of ocular diseases; in particular, ocular disorders associated with systemic diseases. Trainees completing the program will develop advanced competence in medical optometry. Residents will pursue scholarly activities, develop student mentoring and academic skills and strive toward lifelong learning.

Pediatric Optometry Residency at SUNY
Supervisor: M. Vricella, OD
Email: mvricella@sunyopt.edu
Positions available: 2
Mission Statement
The mission of the Pediatric Optometry Program at the State University of New York, College of Optometry, provides an individual with the opportunity to obtain advanced college-level training in pediatric optometric patient care, particularly in areas of vision therapy and binocular vision. Residents will possess the skills and confidence to care for the pediatric population as well as teachers in optometric institutions, and serve the profession of optometry as experts and leaders in the areas of vision therapy and binocular vision.

Vision Rehabilitation (Brain Injury Rehabilitation) Ophthalmology Residency at Womack Army Medical Center
Supervisors: W. Postov, OD & A. Peterson, OD
Email: Winston.postov.mil@mail.mil & asron.s.peterson17.mil@mail.mil
Position available: 1
Mission Statement
The mission of the Womack Army Medical Center (WAMC) Vision Rehabilitation (Brain Injury Rehabilitation) Residency Program is to provide advanced clinical training to optometric residents who have demonstrated an interest in rehabilitation modalities, as well as advanced primary care in an interdisciplinary team. Residents will be provided with advanced clinical training in vision therapy and rehabilitative orthoptics, including evaluation and management of patients with sensorimotor deficits, visual consequences of head trauma and vestibular disorders. The resident will provide comprehensive optometric care in rehabilitation medicine settings.

Primary Eye Care/Ocular Disease Residency at VA New Jersey Healthcare System
Supervisor: M. Caffero, OD
Email: malinda.caffero@va.gov
Positions available: 3
Mission Statement
The Optometric Residency Program at the Veterans Affairs New Jersey Healthcare System is committed to expanding the knowledge of its residents in the delivery of primary optometric patient care, particularly as it pertains to ocular disease, in addition to providing exposure to low vision. The optometry resident is provided the opportunity to participate in the delivery of health care in a multi-disciplinary hospital-based setting, with both a large outpatient and inpatient population. Our program strives to provide the resident with an environment that enhances clinical skills while also fostering the pursuit of scholarly activities.

Ocular Disease / Primary Eye Care Residency at BronxCare Health System
Supervisor: A. Khattra-Sullivan, OD
Email: akhattra@bronxcare.org
Positions available: 3
Mission Statement
The mission of the Optometric Residency Program in Ocular Disease/Primary Eye Care at BronxCare Health System is to provide the post-doctoral optometrist a rich clinical learning experience through its diverse patient base in the underserved South and Central Bronx communities. The resident will participate in primary-care and interdisciplinary health care settings. This program enables the resident to gain a high level of clinical competence in full-scope optometric care as well as acquire advanced didactic education. Graduates of this residency program will possess the skills necessary to thrive in the areas of primary eye care, ocular education and leadership within hospital-based as well as private clinical settings.

Pediatric Optometry / Ocular Disease Residency at BronxCare Health System
Supervisor: T. Eleff, OD & D. Crane, OD
Emails: teleff@bronxcare.org & dcrane@bronxcare.org
Position available: 1
Mission Statement:
The mission of the Optometric Residency Program in Pediatric Optometry/Ocular Disease at BronxCare Health System is to provide the post-doctoral optometrist with a rich multi-disciplinary clinical experience through its diverse patient base in the underserved South and Central Bronx communities. The resident will be provided with advanced clinical training in low vision rehabilitation and management of ocular diseases. Residents will be involved in multidisciplinary patient care in a VA Medical Center setting. Individuals who complete the program are expected to be able to deliver a high level of clinical care in these areas.

Primary Eye Care/Vision Therapy and Low Vision Rehabilitation Residency at Northport VA Medical Center
Supervisor: S. Patel, OD
Email: Shephali.patel@va.gov
Positions available: 4
Mission Statement
The residency in Primary Eye Care/Vision Therapy and Low Vision Rehabilitation medicine seeks to attract the best qualified residents and provide them with advanced didactic knowledge and a concentrated clinical experience in vision therapy and low vision rehabilitation. Individuals who complete the program are expected to be able to deliver a high level of clinical care in vision therapy, serve as teachers in optometric institutions, and serve the profession of optometry as experts and leaders in the areas of vision therapy and binocular vision.

Combined Ophthalmology Residency and Graduate Degree in Vision Science
Supervisor: J. Postov, OD
Email: jojpostov@sunyopt.edu
Position available: 2
Mission Statement
The residency combines full time training and a combined graduate/residency program, at the State University of New York, College of Optometry, provides an individual with the opportunity to obtain advanced clinical competency in a number of related areas. The residency is designed to provide the optometric graduates who have demonstrated an interest in the combined program are expected to be able to deliver a high level of clinical care in vision therapy, serve as teachers in optometric institutions, and serve the profession of optometry as experts and leaders in the areas of vision therapy and binocular vision. Translational research and the direct clinical application will occur while developing and maintaining advanced clinical competencies.

Vision Therapy & Rehabilitation Residency at Eye Care Associates
Supervisor: R. Schulman, OD
Email: drandyschulman@gmail.com
Position available: 1
Mission Statement
To expand access, awareness and advanced competence in the areas of vision therapy and rehabilitation in a private practice setting. To offer proficiency in the areas of behavioral and pediatric optometric care, vision enhancement and sports vision; with patient encounters including contact lens and ocular disease through a residency program.

Vision Rehabilitation (Brain Injury Rehabilitation) Optometry Residency at SUNY
Supervisor: M.H.E. Han, OD
Email: mhan@sunyopt.edu
Position available: 1
Mission Statement
The residency in Vision Rehabilitation (Brain Injury Emphasis) provides advanced clinical training in the diagnosis, treatment and vision rehabilitation of patients with acquired brain injury (ABI) that result from trauma, cerebral vascular accidents, tumor, aneurysm, and post-surgical complications. The program provides the graduate completing the residency program with:

* An interdisciplinary approach in managing patients with acquired brain injury (ABI) and includes rehabilitation, medical, and social service professionals.
* An advanced and concentrated didactic component in ABI-related primary eye care and vision rehabilitation.
* The knowledge base to assume an active role within organized optometry and primary eye care and vision rehabilitation.

Dr. Irwin B. Suchoff Residency Program in Vision Therapy & Rehabilitation at SUNY
Supervisor: L. Strawn, OD
Email: lstrawn@sunyopt.edu
Positions available: 4
Mission Statement
The residency in vision therapy and rehabilitation seeks to attract the best qualified candidates and provide them with advanced didactic knowledge and a concentrated clinical experience in vision therapy and low vision rehabilitation. Individuals who complete the program are expected to be able to deliver a high level of clinical care in vision therapy, serve as teachers in optometric institutions, and serve the profession of optometry as experts and leaders in the areas of vision therapy and binocular vision.
